

HAWAI‘I LAND TRUST

2022 ANNUAL REPORT

2022 Highlights & Accomplishments

In 2022, HILT grew its staff by five, protected 230.5 acres on Maui and O'ahu, advanced 10 land conservation projects toward permanent protection in the next two years, and connected thousands of students, residents, and visitors with the land through 'āina-based education, cultural practice, stewardship, and recreational activities. We are thrilled by the building momentum that will ensure the protection and community stewardship of

even more of Hawai'i's coastlines, Hawaiian cultural landscapes, and lands that grow food for Hawai'i's people.

HILT measures its success in advancing its mission through a variety of Protect, Connect, and Steward metrics. We not only track increases in land protection and stewardship, but also student and community engagement and perpetuation of cultural practice.

Protect Highlight: Kahumana Organic Farms

In February of 2022, HILT celebrated the protection and expansion of prime Wai'anae farmland through an agricultural conservation easement, ensuring 24 acres of land will be permanently farmed to grow healthy food for local consumption. This project directly aligned with HILT's conservation priority to protect working farms and ranches that produce healthy food for our communities.

Additionally beneficial to Hawai'i, and the rest of the planet, Kahumana Farms uses regenerative agricultural practices that improve soil health, sequester carbon, and increase the health of the surrounding ecosystem.

The Kahumana Farms agricultural conservation easement is the first completed under HILT's major partnership with the USDA-NRCS Agricultural Conservation Easement Program (ACEP) that began in November 2020. HILT and USDA-NRCS' partnership opens opportunities for HILT to bring home millions of dollars in federal matching funds for the protection of agricultural lands throughout Hawai'i. This partnership, the first of its kind in Hawai'i, provides opportunities for farmers, ranchers, and the possibility of expansion for fishpond stewards to preserve their lands in perpetuity for the production of local foods, with wide ranging impacts including food sustainability, community resilience, and ecological health.

HILT is working on four more exciting agricultural conservation easement projects which we hope to complete in the next two years. Our partners on these projects include Island Harvest, Hawai'i Institute of Pacific Agriculture, and Starseed Ranch in Kohala, Hawai'i and HILT's oldest agricultural conservation easement project, Ke'anae Lo'i Kalo in Ko'olau, Maui. If you are a farmer or rancher who is interested in protecting your land with a perpetual conservation easement, please contact Shae Kamaka'ala, HILT's Director of 'Āina Protection at shae@hilt.org.

Steward Highlight: Restoring Kapoho Loko I'a Kalo

In January of 2022, HILT took the first steps to begin what will be a many years long project to restore the ancient loko i'a kalo in the Kapoho wetlands at Waihe'e Coastal Dunes & Wetlands Refuge. As a landowner along the Waihe'e River, HILT was one of the beneficiaries of the historic Nā Wai 'Ehā Water Rights case - a vital step toward restoring vitality of the community. The vision for the restoration project is to ultimately have a functioning fishpond that can provide a source for both fish and kalo for the community. Kapoho Loko I'a Kalo is an inland fishpond, cultivating both kalo and fish in brackish water. As far as we are aware, this is the only fishpond of its kind in active restoration in the state. We are a culture that honors sustainability and we see fishponds a symbol of the connection between communities, the 'āina, and mo'omeheu. We believe this work, in concert with our other cultural and natural restoration projects, will restore a sense of place-based management and a relationship with the land for all our communities.

Interested in getting involved? Join one of our monthly volunteer days at Waihe'e. Connect with Kia'i Collier, Maui 'Āina Steward at kiai@hilt.org to learn more.

Connect Highlight: The First Traditional Hale Built in Hau‘ula in 100 Years

In the summer of 2022, our Maunawila team brought together a group of 18 high school and college students participating in HILT’s Maunawila ‘Ōpio program, a paid summer internship program. Over five weeks, the ‘Ōpio gathered and prepared the materials for and constructed a hale using traditional techniques and materials. Ironwood posts and hau branches came from on-site and community donations of loulu fronds, use of machinery, and much more made this effort a collaborative success. The ‘Ōpio learned the different stages of kūkulu hale while integrating Hawaiian values like mālama ‘āina. We are grateful to the teachers that shared their ‘ike and to all those that worked together.

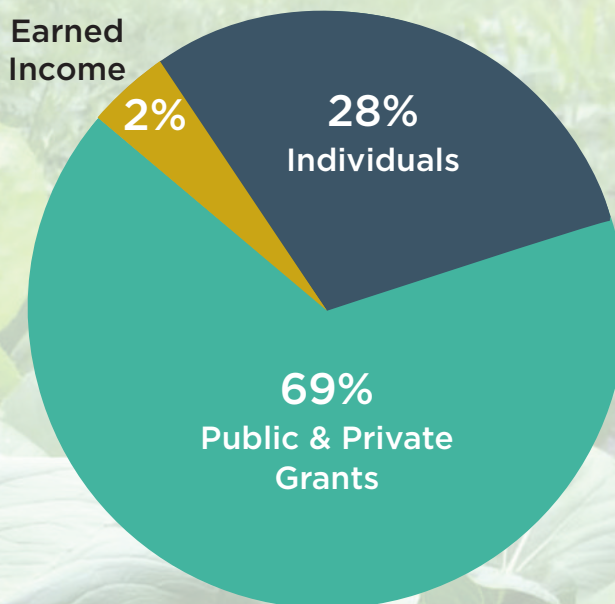

Through building hale at Maunawila, we are building community. Each of the ‘Ōpio are supported by their families to learn and grow while in the program. In turn, the families learn from the ‘Ōpio. Programs like these, held at many HILT community preserves across the state, provide opportunities for individuals and families to connect to ‘āina and come together as a community recognizing our commonalities and strengths.

NŌPILI MONTHLY GIVING CLUB

The nōpili is a freshwater goby known to climb waterfalls by clinging to the wet stones. The unwavering determination of the nōpili has become synonymous for showing steadfast love through small, persistent acts. We equate that with the dedication of donors who make recurring gifts to HILT. These Nōpili empower HILT to take a more proactive role in protecting critical lands across the state.
